# 1 PREAMBLE

## 1.1 Introduction

The Grade 3-7 Family, Religion and Moral Education (FAREME) syllabus is a five year learning area which is designed to promote in learners an awareness and appreciation of different religions practised in Zimbabwe. The learning area seeks to develop a sense of family cohesion, unity, moral uprightness, inclusivity and tolerance among citizens with acceptable behaviours and values (*Unhu/Ubuntu/Vumunhu*).

## 1.2 Rationale

Family, Religion and Moral Education is the study of religious teachings, practitioners, rites and rituals and their impact on an individual and family as well as local, national and global community. The study of FAREME is significant in the development of moral responsibility and behaviour, capacity for discipline, a sense of sound ethical norms, values and goals. The learning area leads to the understanding of the processes of a free society, and heightening awareness of the importance of character development to the continued success, peace and stability of the Zimbabwean society.

The study of FAREME enables learners to develop skills in:

- problem solving
- critical thinking
- decision making
- conflict management
- leadership
- self-management
- communication
- technology and innovation
- enterprise
- social consciousness and self identity

*These skills are also the Learner's exit profiles spread across all topics.*

## 1.3 Summary of Content

- have aspirations
- have spiritual needs
- are aware of the impact of religion on self, family, community and nation
- participate in religious festivals and ceremonies

## 1.5 Cross-Cutting Themes
